

# NANDHANA K.S

[nandanks.jan13@gmail.com](mailto:nandanks.jan13@gmail.com) | +91 9188789031 | <http://www.linkedin.com/in/nandhana-k-s-b57b92389> | [nandhanaks-bi.github.io](https://nandhanaks-bi.github.io) | Kerala, India

## PROFESSIONAL SUMMARY

Detail-oriented Data Analyst and BI professional with hands-on internship experience in data cleaning, transformation, KPI analysis, dashboard development, and analytical reporting. Skilled in Power BI, SQL, Excel, Power Query, and Python, with practical exposure to Snowflake, dbt, Apache Kafka, Databricks, PySpark, and Apache Superset. Experienced in translating structured and simulated datasets into interactive dashboards and meaningful business insights.

## TECHNICAL SKILLS

**BI & Visualization:** Power BI, Tableau, Apache Superset

**Data Analysis & Reporting:** Excel, Power Query, Pivot Tables, VLOOKUP, Advanced Formulas, KPI Tracking, MIS Reporting

**Database & Data:** SQL, Snowflake, Databricks, Delta Lake

**Data Engineering:** Apache Kafka, dbt, PySpark

**Programming:** Python, Pandas, NumPy, Matplotlib

**Tools & Platforms:** GitHub

**Core Skills:** Data Cleaning, Data Transformation, Data Modeling, Dashboard Development, Data Visualization, Analytical Reporting, Insight Communication

## PROFESSIONAL EXPERIENCE

### Data Analytics Intern

Jul 2026 – Present

#### Infotact Solutions

**Remote**

- AtmoSync – Micro-Climate Arbitrage Analytics: Built a simulated IoT analytics pipeline using Python and Apache Kafka to monitor temperature, humidity, and vibration conditions affecting commodities during shipment.
- Loaded sensor data into Snowflake and developed dbt transformation models for container health, spoilage risk, priority, shipment status, and rerouting analytics; connected curated data to Apache Superset for visualization.
- EchoChain – Circular Economy & Secondary Market Lifecycle Analytics: Developed an analytics workflow using Scrapy, Databricks, Delta, PySpark, and Power BI for product, BOM, warranty, component, and marketplace data.
- Performed data-quality checks, SKU matching, lifecycle analysis, and weighted failure-cost analysis to support component-level insights and secondary-market decision making.

### Data Analytics Intern

Jun 2026 – Aug 2026

#### ElevanceSkills

**Remote**

- Developed an interactive Twitter Analytics Dashboard using Power BI and Power Query to analyze tweet performance, engagement, and monthly trends.
- Cleaned and transformed data by handling missing values, errors, duplicates, and data-type inconsistencies; created derived fields for date, time, day, month, word count, character count, and tweet classification.
- Built KPI-focused visuals covering engagement rate, impressions, media interactions, replies, retweets, likes, and top-performing tweets.

### Data Analytics Intern

Jan 2026 – Feb 2026

#### IIM Skills

**Remote**

- Analyzed traffic datasets using SQL and Power BI to clean, structure, and visualize congestion trends through interactive dashboards and MIS reports.
- Applied Python and K-Means clustering for customer segmentation and behavioral analysis.

## EDUCATION

### Bachelor of Computer Applications (BCA)

2022-2025

KVVS College of Science & Technology, University of Kerala

CGPA: 7.42/10

### Diploma in Computer Applications (DCA)

2023

IT Park, Kerala State Rutronix

Percentage: 84.7%

## CERTIFICATIONS

- Data Analytics Master Course 2.0 – IIM Skills | 2026
- Deloitte Australia – Data Analytics Job Simulation – Forage | 2026
- Tata Group Data Visualisation Virtual Experience Program – Forage | 2026
